Curso "Manuel Rico NMR School" en la Residencia Universitaria de Jaca, que os detallo a continuación:

El GERMN organiza habitualmente y de forma bianual el curso "Manuel Rico NMR School" en la Residencia Universitaria de Jaca.

El curso tiene un objetivo eminentemente pedagógico y se centra no sólo en metodología en RMN, sino también en su aplicación como técnica analítica, imprescindible hoy en día. Pensamos que el curso es de interés no solo para socios del GERMN sino también para estudiantes de otros campos de la química, en especial para los miembros de nuestro grupo GEQPN, interesados en aprovechar las ventajas y la información que la aplicación de la RMN puede proporcionar a sus investigaciones.

El plazo de preinscripción está abierto hasta el 12 de Abril y se cuenta con presupuesto para becar parcialmente la asistencia de estudiantes.

Podéis encontrar toda la información referente al curso en la página web

International Sumer School on Natural Products (ISSNP 2019)

Greetings from the International Summer School on Natural Products (ISSNP) 2019! Hope my note finds you well.

We would like to introduce the upcoming 3rd edition of International Summer School on Natural Products (ISSNP 2019) to be held at the University of Naples "Federico II"-CESTEV, from the 1st to the 4th July, and at the Hotel Pianeta Mare in Maratea, from the 4th to 5th of July 2019.

Please have a look at the preliminary programme at <http://www.issnp.org/en/programme.php>

This course is designed for PhD students and young researchers aiming to acquire an interdisciplinary and intersectoral understanding of the state of the art in Natural Products.

The school is designed to foster skills required for successful cross-disciplinary collaboration and to generate a collaborative research space for the development of innovative and high-impact research that delivers solutions to the challenges facing humanity in the future.

A combination of lectures, seminars and interactive sessions will provide an immersive and challenging experience and team-based problem solving activities will help the participants to be prepared for future research studies in these fields.

In addition, interactive sessions on transferable skills, including teamwork, leadership, personal effectiveness, entrepreneurship and innovation, will give the participants training in order to combine research excellence with novel approaches in communication and dissemination strategies.

As an international summer school, ISSNP provides the opportunity to enjoy an exciting experience in a highly stimulating environment and in one of the most inspiring countries in the world, Italy.

Please be informed that the "Abstract Submission" procedure and online registration for ISSNP 2019 are available through the School web site.

Authors are asked to submit a one page abstract using the information available at the web link: <http://www.issnp.org/en/abstract-info.php>

For registrations: <http://www.issnp.org/en/registration-info.php>

Kindly feel free to contact us at info@issnp.org for any further queries.

Hoping to meet you soon,

Valeria Costantino

Solicitud de Ayudas para participar en la Bienal de la RSEQ en Sitges

Desde grupo de Química de los Productos Naturales se pretende contribuir con 100€ a la participación de hasta 10 Socios Jóvenes del GEQPN.

Los socios deberán participar en el simposio S5 - Productos Naturales, sondas moleculares con estructuras privilegiadas

Tras efectuar la inscripción en el Congreso (socio joven 150€), los solicitantes de esta ayuda tendrán que cumplimentar el impreso adjunto y enviarlo al secretario del grupo

(jesus.fernandez@diq.uhu.es)

El reembolso se hará efectivo una vez finalizada la Bienal, , en la cuenta bancaria que se indique en esta solicitud. La beca es incompatible con cualquier otra concedida con la misma finalidad por otros Grupos Especializados o Secciones Territoriales de la RSEQ.

No se admitirán solicitudes que no estén debidamente cumplimentadas.

Greetings from the International Summer School on Natural Products (ISSNP) 2017!

We would like to introduce the upcoming 2nd edition of International Summer School on Natural Products (ISSNP 2017) to be held in July 3-7, 2017 in Naples, Italy.

ISSNP 2017 is a five-days School consisting of lessons delivered by acclaimed scientists from academia and industry, comprehensive talks, oral and poster presentations by participants on innovative and emerging themes of research at the cutting-edge of natural products drug, cosmetic and food research.

Abstract Submission and **online Registration** are available on the ISSNP 2017 website

<http://www.issnp.org/en/abstract-info.php> and <http://www.issnp.org/en/registration-info.php>

If you have registered or submitted an abstract, please check your mailbox as you should have received a confirmation. Please contact the secretariat at info@issnp.org in case of problems.

A limited number of fellowships will be granted for young researchers (PhD students, scholarship and fellowship holders, post-docs). Applicants must submit their fellowship application by e-mail to the School Organizing Committee

by 1st March 2017 (

NEW DEADLINE). More information at

<http://www.issnp.org/en/fellowships.php>

We are pleased to inform that **Hotel booking online** procedure is active now through the School web site <http://www.issnp.org/en/hotel-bookings.php>

Should you need any information, please do not hesitate to contact us.

Kind regards,

2nd ISSNP - Organizing Secretariat

Directing Biosynthesis V will be the fifth in a successful series of meeting and will represent a significant opportunity for scientists interested in the biosynthesis of natural products to hear more about developments in the field, network and present their own work during poster sessions and talks.

Themes:

- *Enzymology and Structural Biology*
- *Pathway engineering*
- *Natural products discovery: - a response to AMR*
- *Biosynthesis of cell walls / targets for antimicrobials*
- *Chemical ecology*

- **18th TetrahedronSymposium**

June 27-30, 2017, Novotel Budapest City & Budapest Congress Center, Budapest, Hungary

<http://www.tetrahedron-symposium.elsevier.com>

Topics include:

- *New reagents, catalysts, strategies and concepts for organic synthesis*
- *Synthesis and functional properties of molecules*
- *Total synthesis of natural products*
- *Stereoselective synthesis*
- *Mechanistic organic chemistry*
- *Biosynthetic pathways*
- *Bioorganic chemistry and medicinal chemistry*
- *Organic materials*
- *Molecular recognition*
- *Sustainable organic chemistry*

- **6th congress of the International Society of Applied Phycology**

June 18-23, 2017, La Cité Nantes Events Center, Nantes, France.

International Summer School on Natural Products (ISSNP) 2017

Greetings from the International Summer School on Natural Products (ISSNP) 2017! Hope my note finds you well.

We would like to introduce the upcoming 2nd edition of International Summer School on Natural Products (ISSNP 2017) to be held in July 3-7, 2017 in Naples, Italy.

ISSNP 2017 is a five-days School consisting of lessons delivered by acclaimed scientists from academia and industry, comprehensive talks, oral and poster presentations by participants on innovative and emerging themes of research at the cutting-edge of natural products drug, cosmetic and food research.

This year we have scheduled 3 interactive-sessions: the first named "From ideas to business plan" leaded by Prof. Chereau from the Skema Business School; the second dedicated to "Soft skills", a training lab session aimed to improve oral and written communication skills; the last one dedicated to patents with the participation of dr. Paola Lauro from the European Patent Office.

All sessions will be in a non-formal atmosphere where young researchers and acclaimed scientists will have time to talk, share ideas and have fun.

Have a glance on the scheduled programme through the link: <http://www.issnp.org>

Please be informed that the "Abstract Submission" procedure for ISSNP 2017 is now available through School web site.

Authors are asked to submit a one page abstract using the information available at the web link: <http://www.issnp.org/en/abstract-info.php>

Estimados socios,

Les adjunto la siguiente información por si fuera de su interés.

5º Congreso Hispano-Marroquí de Química Orgánica y 8º Simposio Andaluz-Marroquí de Química de Productos Naturales

<http://www.smsoc5.com>

Del Jueves 10 al Sábado 12 de Marzo de 2016, se celebrará en Casablanca (Marruecos).

La sede del congreso estará en el hotel Casablanca Le Lido Thalasso & SPA, <http://www.hotel-casablanca-lido.com/> ubicado junto al mar en el Suroeste de Casablanca. Hasta la fecha han confirmado su participación los siguientes conferenciantes por parte española, Prof. Miguel Ángel Sierra (UCM), Prof. Carmen Ortiz Mellet (USE), Prof. Rosario Hernández Galán (UCA), Prof. J. Javier Fernández (ULL, Instituto Universitario de PN "Prof. Antonio González"), Prof. Ignacio Fernández (UAL) y Prof. José Fco. Quilez (UGR).

Los interesados en participar deben contactar con los miembros del Comité Organizador españoles Prof. Isidro González Collado isidro.gonzalez@uca.es, Prof. Manuel Muñoz Dorado

We are delighted to announce the 15th International Symposium on Marine Natural Products, to be held at Cumbuco Beach, 30 km from Fortaleza, on the tropical northeast coast of Brazil, from August 29th to September 2nd, 2016.

Fortaleza is a popular holiday destination in Brazil, reaching the mark of the country's most visited city. Fortaleza is the capital of Ceará, a state blessed with 573 km of white sandy beaches looking out at the Atlantic Ocean, at nearly 5° S of the Equator. The climate is warm, with an average annual temperature of 26.5°C (80°F). Cultural life is diverse and abundant.

We would like to take this opportunity to invite you to participate and present your work on different aspects of the marine natural products field.

The following topics will be discussed:

- Marine genetic resources: expanding access to new taxa and oceans
- Chemical ecology: learning from ecosystem dynamics
- Chemical synthesis: exploiting complex scaffolds
- Exploiting and expanding on chemical diversity
- Omics approaches: integrating complex data into innovation
